

Tree Watch

Autumn Observations

Scientific Name: _____ Common Name: _____

Location: _____ OR Arboretum Catalog Number: _____

Name of Observer: _____

Date of Observation						
First colored leaves observed						
50% or more of leaves colored						
• All leaves are colored						
50% or more of leaves fallen						
• All leaves fallen						
Fruit drop or dispersal						

- **Colored Leaves** At least half (50%) of the leaves (including any that have fallen to the ground) have changed to their late-season colors.
- **All leaves colored** Virtually all leaves have changed to their late-season colors, and there is virtually no green left in the leaves.
- **Leaves fallen Estimate** % of leaves from the whole tree that have fallen.
